## ANM Auxiliary Nurse Midwifery

Auxiliary nurse midwifery or nurse hybrids commonly known as ANM, is a village-level female health worker in India who is known as the first contact person between the community and the health services. ANMs are regarded as the grass-roots workers in the health organisation pyramid. Their services are considered important to provide safe and effective care to village communities. The role may help communities achieve the targets of national health programmes. Auxiliary Nurse Midwifery (Nursing) course is a 12th standard Medical Nursing course. It deals with the field of science and covers healthcare profession focused on the care of individuals, families, and communities so they may attain, maintain, or recover optimal health and quality of life from conception to death.
